### **Our Collaboration with Specto Management Solutions**

Although parties can regulate their relationships by way of contracts and direct communications, sometimes disputes may still arise.

In such a case, Mr. Murat AKCAEL successfully assisted our legal team, prepared cost studies and participated in negotiations with counter parties as well as part of our team.

We would definitely work with him in the future and recommend his dispute/claims management and cost management services to other companies.

Sincerely yours,

Monica Maria Dascalita
